**NOTIFICATION EMAIL**

CONSTRUCTION HIVE

SQ US PR has made a document for the Dudley Station Improvements project available to you on Construction Hive™.

You can click the link below to directly access it.

**SQ US Pre Release (East)**  
 00 Crosby St  
 New York  
 New York 1007  
 Phone: 555-555-5555

A notification email containing links to new documents will be sent when documents are available.

Without an account access to these reports will be available for 15 days.

**Dudley Station Improvements**

Document	Type	Work Date	Published
<a href="#">FND:EST20-W97</a>	Foundation Report	3/18/2020	4/17/2020

A link to register a Construction Hive account, to provide access to reports after the initial 15 day period and search features, is included in notification emails.

**Create a free Construction Hive™ account**

You can view documents on Construction Hive without registering for 15 days. After that, you need to [create a free Construction Hive Account](#), which will also let you search documents you have received, and forward documents to other people working on your project.

[Register a free account](#)

**SETTINGS**

At the top-right of the page, click on Settings. On the settings page you may:

- Change your name, email addresses or password
- Change your language settings (currently English only, but also affects date/number display)
- Change your time zone (affects searching, email notification times and Home tab)
- Change the format you receive email notifications in (HTML recommended)
- Choose between receiving daily notifications of new reports, immediate notifications, or turn off notifications

**PROFILE**

At the top-right of the page, click on Profile.

- Your profile is optional and will be viewable to other users of Construction Hive. Fill out details such as your location, contact details and a photo.

**LOGOUT**

At the top-right of the page, click on Sign out to close your current session.

This is recommended if you are using a shared computer.

SEARCHING

Use **Advanced Search** to search on more specific fields (shown below).

Search for a specific report by keyword, including part of the report number, project, location, tag etc.  
**Use quotes ("")** for an exact match search.  
**Use AND and OR** to customize your search.

Keywords

Project  Start typing a project name to select from a list.

Activity between  and  ⓘ

Published between  and

Document Tags  Start typing a tag to list all possibilities. Tags determine the **type of report** you are looking for.

Document Sealed

Document Status  All statuses  
 Out of specification  
 Preliminary  
 Urgent

Include  All documents  
 Documents I have published  
 Documents I have received  
 Documents I have read  
 Documents I have not read

Search by document status. For example, to find only out of spec documents, select the "Out of specification" checkbox.

Click on any of these buttons to filter the current result set. Click on "All" to reset a particular item.

Depending on your company and your user rights, you may be able to **Export All** or **Export Selected** items to an external system.

You may download more than one item at a time by using the **Download All** and **Download Selected** buttons.

Click on **Forward All** to send all reports in your search (including those not displayed on the page) to one or more recipients.  
 Click on **Forward Selected** to forward only the selected documents.

Spectra QEST Account 02-Mar-2020

**Concrete Test Report**

Report No: CTR:EST20-W32-C1

**Client:** Massachusetts Bay Transportation Authority  
 10 Park Plaza  
 Boston, MA 02116

**Project:** Dudley Station Improvements

**Mix Data**

Supplier: ABC Ready Mix  
 Plant: Sunshine Plant  
 Mix Identification: ABC123  
 Specified Design Strength (psi): 4000 at age 28 days

**Sample Details**

General Location	Building No.	Field Sample No.	Blump (in)	ASTM C 143	Measured	Specified
Gold Street A.1 and C.9			0	0.5	4.8	4.8

**Compressive Strength of Concrete Cylinders**

Specimen ID	Date Tested	Age (Days)	Diameter (in)	Length (in)	Area (sq in)	Type of Maximum Load	Failure Type	Compressive Strength (psi)
EST20-W32-C1-1	03-10-20	7	6	12	28.26	U		
EST20-W32-C1-2	03-10-20	7	6	12	28.26	U		
EST20-W32-C1-3	03-10-20	28	6	12	28.26	U		
EST20-W32-C1-4	03-10-20	28	6	12	28.26	U		
Average 28 Day Compressive Strength (psi)								2000
Required Strength (psi)								2000

**Notes**

1. Specimen was 1/2" C-12  
 2. Specimen was tested at ASTM C 131  
 3. Sample ID is based on the date of test and the ASTM C 1314  
 4. Pump
